

2017 PERU TESOL ASSOCIATION CALL FOR PARTICIPATION

The 25th, Peru TESOL Association Annual Convention

*July 31st, to August 2nd, 2017
Chiclayo, Lambayeque. Peru*

CONVENTION THEME

“English: Paths to Success”

The 2017 Conference theme, ***English: Paths to Success***, calls on us to consider the multiple contexts, which contribute to successful English language instruction. **From the student perspective:** What are classroom activities, which promote success for the EFL student? How do task based and performance based activities promote success? **From the perspective of the instructor:** What are paths to successful professional development for EFL teachers? What theories are a foundation for “best practices”?, **And for curriculum design:** What curricular paths in language instruction lead to successful futures for our students? What approaches in ESP (English for Special Purposes) motivate our students toward successful paths in further education and in careers?

The Annual Convention is the most important event for Peru TESOL Association and is an essential element in the professional development of its members. These meetings create opportunities to report on projects and activities as well as to share experiences. All those interested in participating in our convention are invited to submit two or three session proposals.

WHO CAN PRESENT?

Teachers, teachers’ trainers, candidates for Masters and Ph.D. degrees, researchers, program administrators, materials and curriculum developers. Professionals in fields such as Education, Linguistics, Psychology, Sociology, Translation and Communications are also welcome. We especially encourage members of Peru – TESOL Association and any other TESOL International Association Affiliate in the world to present at our annual convention.

WHAT TOPICS ARE ENCOURAGED?

Innovative proposals on classroom practices, connections between teaching and learning, language interaction, integration of skills, cultural differences, and similarities applied to language learning, technology supporting teaching – learning processes, linguistics and activities which improve the language skills, outcomes of classroom research or investigation are solicited. Interactive formats for presenting information to participants are encouraged.

WHAT TYPES OF PROPOSALS ARE POSSIBLE?

Two types of proposals can be submitted: a) workshops, and b) demonstrations. Presentations such as plenaries, conversations, panels and papers are offered only by invitation.

a) **Workshop** (90 minutes, *allow 10 minutes of the allotted time of your presentation to participants to go to their next session*):

A workshop has very little lecturing by the presenter, the emphasis is on the participants' activity, which is carefully structured by the presenter. The presenter works with the group, helping participants solve a problem or develop a specific teaching technique. Research findings can be presented in this way.

b) **Demonstration** (45 minutes):

In a demonstration, most of the time is used for showing, rather than telling, a technique for teaching or testing. Normally, the presenter's statement of the theory underlying the technique takes no more than five minutes.

In both proposals, the presenter often has handouts and may also use audiovisual aids.

WHAT ARE THE STEPS IN SUBMITTING A PROPOSAL?

1. Complete the attached Speaker Proposal Form. Such a form must be completed for each proposal.
2. One requirement of the form is to provide an abstract that will appear in the program book, if the proposal is accepted.
