The 28th, Peru TESOL Association Annual Convention

*July 31st, to August 2nd, 2020
Trujillo, La Libertad. Peru*

CONVENTION THEME

“Embracing Tradition And Innovation”

In this conference we will consider "tried and true" methods which have been used and updated successfully for today's EFL classroom. We will examine new twists to established research-based approaches which provide teachers with exciting strategies to engage and inspire our students.

The Annual Convention is the most important event for Peru TESOL Association and is an essential element in the professional development of its members. These meetings create opportunities to report on projects and activities as well as to share experiences. All those interested in participating in our convention **are invited to submit two or three session proposals.**

WHO CAN PRESENT?

Teachers, teachers' trainers, candidates for Masters and Ph.D. degrees, researchers, program administrators, materials and curriculum developers. Professionals in fields such as Education, Linguistics, Psychology, Sociology, Translation and Communications are also welcome. We especially encourage members of Peru TESOL Association and any other TESOL International Association Affiliate in the world to present at our annual convention.

WHAT TOPICS ARE ENCOURAGED?

Innovative proposals on classroom practices, connections between teaching and learning, language interaction, integration of skills, cultural differences, and similarities applied to language learning, technology supporting teaching – learning processes, linguistics and activities, which improve the language skills, outcomes of classroom research or investigation, are solicited. Interactive formats for presenting information to participants are encouraged.

WHAT TYPES OF PROPOSALS ARE POSSIBLE?

Two types of proposals can be submitted:

- a) Workshops,
- b) Demonstrations.
- c) Presentations such as plenaries, mini plenaries, conversations, panels and papers are offered only by invitation.

- a) **Workshop** (90 minutes, *allow 10 minutes of the allotted time of your presentation to participants to go to their next session. Attendance of participants is taken in every session*):

A workshop has very little lecturing by the presenter, the emphasis is on the participants' activity, which is carefully structured by the presenter. The presenter works with the group, helping participants solve a problem or develop a specific teaching technique. Research findings can be presented in this way.

- b) **Demonstration** (45 minutes):

In a demonstration, most of the time is used for showing, rather than telling, a technique for teaching or testing. Normally, the presenter's statement of the theory underlying the technique takes no more than five minutes.

In both proposals, the presenter often has handouts and may also use audiovisual aids.
